

HW3: write, compile, and run C code (100 p)

Refer to <https://www.w3schools.com/c/> for guidance on the C programming language. For each task below, submit the C code along with a screenshot of the code being compiled and executed in the terminal.

1. Read and Display Two Numbers (20 points)
Write a program that prompts the user to input two numbers and displays the sum result.
2. Check Odd or Even (20 points)
Write a program that determines if a number entered by the user is odd or even.
3. Find the Largest of Three Numbers (25 points)
Write a program to identify the largest number among three values provided by the user.
4. Sum of Array Elements (35 points)
Write a program that calculates and displays the sum of all elements in an array.

Submission Requirements:

Create a PDF document named **YourName_Lab3** (e.g., *ArwaAlsubhi_Lab3*). The document must include a screenshot of the code for each task above and a screenshot of the terminal showing the commands used to compile and execute the code, along with the program output.
